PRELIMINARY AMENDMENT A

Sir:

In response to the Notice To File Missing Parts of Non-Provisional Application
mailed June 15, 2001, please amend the subject application as follows:

In the Abstract:

Please add the following abstract as page 18 of the specification:

APPARATUS AND METHOD FOR SUPPLYING ELECTRONIC
CONTENT TO NETWORK APPLIANCES

ABSTRACT OF THE DISCLOSURE

Embodiments of the invention provide multimedia data over an electronic network to a wireless computing device having a browsing program. A first portion of multimedia data having a first display format is received at a proxy server. The first display format is converted to a second display format, which is a data format used by the browsing program to interpret multimedia data. The text data is transmitted over the electronic network to the wireless computing device before transmission of the graphical data and before a second portion of multimedia data is received at the proxy server.

REMARKS

This preliminary amendment adds an abstract to the application.

Favorable action is solicited.

Respectfully submitted,
JACK B. STRONG *et al.*
